Attn: Coastal Plain Oil + Gas Leasing  
Program EIS  
222 West 7th Ave, Stop #13  
Anchorage, AK 99513

99513-750413

To the B.L.M.,

~~This letter is protest the opening of ANWR~~  
for oil developement. Before leases are given,  
full study of the impacts of those leases  
needs to be addressed. The long term effects  
on the wildlife, water, and impact on the indigneous  
people, needs to be full accounted. before any developement  
can occur.

The drastic climate changes that we have in the  
far north are experiencing should be causing  
our leadership to be encouraging and funding  
alternatives to oil developement. By preserving  
the arctic from oil developement we are preserving  
our one Earth for future generations.
