Bureau of Land Management,
222 West 7th Avenue, #13,
Anchorage, Alaska 99513-7599

83 FR 17562 - Notice of Intent To Prepare an Environmental Impact Statement for the Coastal Plain Oil and Gas Leasing Program, Alaska

On behalf of Environmental Action, an education and advocacy organization dedicated to the conservation of America's treasures, I formally submit more than 24,900 signatures apposed to the coastal plain oil and gas leasing program, asking for full protection of the Arctic Wildlife Refuge Wilderness.

We need to keep environmental protections intact that help protect our lands and water from overuse and pollution.

I ask that these signatures (attached PDF) be entered into the official record and considered as individual comments. Each of the people listed in the attached spreadsheet signed this comment:

The Arctic is already seeing and feeling the effects of climate change. Polar bears, caribou and hundreds of species of migratory birds depend on the natural habitat the Arctic Refuge offers -- we can't afford to put their and our environment at risk of irreversible pollution.

Oil and gas production would disrupt wildlife in the region and lead to devastating oil spills that negatively impact wildlife, water and climate. Please protect the Arctic Wildlife Refuge.

For your convenience, the petition remains available online at: <https://bit.ly/2K7inSG>.

Should you have any questions about the petition or signature file, please contact me at 202-461-2449 x349 or by email at Sally@environmental-action.org.

Sincerely,

Sally King
