I am opposed to opening the Arctic National Wildlife Refuge to drilling for oil. Oil exploration will destroy this fragile environment, displace native people, and harm wildlife. This area is a national treasure that should not be allowed to be destroyed by greedy oil companies.

Drilling for oil in this and other pristine areas is short sighted. It is only a matter of time before sustainable energy overtakes the need for oil. When that occurs we will be left with environments that have been permanently destroyed.

Thank you.

Marilyn Childs
