Dear Bureau of Land Management,

I am appalled that the Trump Administration is even considering this, but not surprised. The Arctic National Wildlife Refuge is no place for oil and gas drilling. It is one of the last pristine places on this earth and it is our responsibility as humans to protect it. Especially as rich Americans! We have plenty oil and are in no desperate need to take these type of desperate measures. Drilling will surely destroy this beautiful place. We have already polluted so much of the world. Please leave the Arctic National Wildlife Refuge as it was meant to be- a pristine refuge for our wildlife.

Furiously yours,
Summer Carlton
Seattle, WA
