To: blm_ak_coastalplain_EIS@blm.gov

There is no good reason to open up ANWR. We need to be transitioning away from fossil fuels and protecting such a wild national treasure as ANWR. Give Alaskans some tax credit or some other economic benefit rather than oil and gas jobs in ANWR. We are strongly opposed to energy development or any development in ANWR. What right does this generation have to plunder every possible natural resource on this planet?
Humans should be smarter and more caring than this.
