Mr. Zinke,

As an avid sportsman, father and proud American public land owner, I truly can't believe that you are considering opening the AR to drilling. I would expect this if Trump but you have ties to the land and, I thought, a modicum of intelligence and respect for our country.

For they shake of our children and their children, please don't allow one of the crown jewels of or public lands system to be destroyed by short sided development. Don't allow drilling in the arctic refuge.

Sincerely, Matthew Clark
