I've never been there but I hope to go.

I want my children to see the vast wilderness too.

Sometimes we have to balance oil dependency with the environment. I use them both. I drive to work. And I hike on the weekends.

We have so many great alternatives: solar, wind, and fracking.

Do we REALLY need to drill in the beautiful wilderness area and endanger the area as well as spoil the raw beauty?

Please, no drilling in the Artic Wildlife Refuge! Lets preserve it!!

Thank you
