To: blm_ak_coastalplain_EIS@blm.gov

It's a refuge, it's the animals' home. It is supposed to be pristine and untouched. Opening it to drilling and development will destroy it. Please show you have a conscience! Please show you care! Don't destroy one of the last places that is a haven for animals and that preserves nature. I beg you, please let at least the refuge be a place that stays protected from horrid human encroachment. Please show that you can find it in your heart to do the right thing!

Thank you
