Please mark me down as strongly opposed to oil and gas drilling in or near the Alaska National Wildlife Refuge. It is a misuse of resources, will not produce a meaningful increase in oil and gas production which is already rapidly rising in the US, and will do great harm to wildlife and the environment which can never be undone. It is wrong policy which should never be implemented. William Conklin, 13231 15th Ave. NE, Seattle, Wa 98125
