Greetings,

I am submitting my comment to let you know that I do not support the damage of this wildlife refuge. The Arctic National Wildlife Refuge is one of the most pristine areas on Earth. It is teeming with many forms of wildlife that are crucial to its ecosystem, and even the people that live around them. For example, many of the natives that live around this location completely depend on the caribou that roam around the refuge. Ruthlessly drilling and damaging this land would not be fair to the people or the environment. If we care about the lifestyle of other people and if we want to preserve our environment, we cannot allow drilling here. Thank you for your consideration.
