To: blm_ak_coastalplain_EIS@blm.gov

To whom it may concern: I am appalled that and EIS study is being proposed for drilling in the Arctic Refuge. We have let this Administration operate unchecked in it focus on dismantling decades of important/crucial work to provide truly protected lands for wildlife.

The Arctic Refuge is central to those successes and is no place for oil and gas. Oil and gas activities should not be allowed on the Coastal Plain of the Arctic Refuge.

This is the single most destructive attack on the wilderness, wildlife, and subsistence resources of a national wildlife refuge in modern history.

As a voting/tax paying citizen, and life long republican, I am discouraged and urge lawmakers and citizens alike to vehemently oppose this disturbing proposal!

Thank you-
Cynthia Dietzmann
