Hi,

There doesn't seem to be a working link to make a comment on your website, so I guess I'll do it here. I do NOT want you to drill in the Alaskan wildlife refuge. It is a huge mistake. You will get very little oil from it, and the costs will far outweigh the benefits. For God's sakes, we have an administration that is dragging our country so far back in the wrong direction, attacking our environment, and destroying our wild places. Don't help them. I absolutely 100% oppose this plan.

Thanks,

Jessica Craven
