To: blm_ak_coastalplain_EIS@blm.gov

Please do not allow oil drilling in our precious Artic Refuge! Sally Jewell sums it up so well and was the best Secretary of Interior ever—she is smart and truly cares about this earth we all call home.

Her words sum up my thoughts on the issue:

"We know from experience that the web of roads, requisite infrastructure and inevitable spills would cause irrevocable damage to one of the most sensitive and pristine places on the planet. This isn't just my opinion: It's what the U.S. Fish and Wildlife Service concluded in 2015 after a multiyear review that included more than a million public comments, including from scientists, biologists and Alaska Native communities.

We should not be a nation that trades away our children's future for reckless, shortsighted political gimmicks. We are better than this."

Thank you for caring enough to do the right thing.

Sincerely, Lynda Cunningham
