COMMENT IN SUPPORT OF OPENING THE ANWR 1002 AREA FOR OIL EXPLORATION BY DAVE DONLEY

I am a born and raised Alaskan; and **I support the opening of the 1002 area of the Arctic National Wildlife Refuge. I have held elected public office as a democrat, republican and non-partisan for over 17 years. I worked as a firefighter, logger, and construction laborer on the Trans Alaska Pipeline Project. I am a retired member of LIUNA Laborers Local 341.**

**I have traveled by land and air in the 1002 area and visited with the people who live there.** From direct personal experience I know the local people support oil exploration; and the land will be environmentally protected during exploration and any subsequent production. Alaskans have developed the North Slope oil fields responsibly and will continue to do so with NO effects to the Arctic Caribou herd or any other animal species. We are the caretakers of the environment and the vast majority of Alaskan support ANWR development.

Senator (Retired) Dave Donley
