Interior Department Bureau of Land Management,

Like many who as citizens share the natural heritage of the Arctic National Wildlife Refuge, I oppose oil and gas drilling there. There are some places drilling doesn't belong. Oil and gas activities should not be allowed on the Coastal Plain of the Arctic Refuge.

The plan to sell off this vital public land is irresponsible; future generations will no look kindly on what is now proposed there by the Administration. What the public needs now is compliance with all the important legal protections that are in place to protect sensitive resources of the Coastal Plain.

James Duff
