This is not a decision that can be turned around after it is made. Once the calving grounds are disrupted, the caribou numbers will fail. This will mean the end of not just a freedom-loving species, but the communities that depend on the caribou as part of their heritage.

You have the choice to make a once-in-a-lifetime decision to stand up for what is decent and good. Please protect the Arctic Refuge from development.

Kind regards,
Heather Finton
