Dear Bureau of Land Management:

I am strongly opposed to allowing drilling for oil and gas in the Arctic National Wildlife Refuge. (In the past my husband wrote letters when there were threats by Republicans to allow drilling.)

The proponents say drilling can be done safely, but there will inevitably be roads and spills which will harm the environment. There are other places to drill and frack, plus there currently a glut of oil.

Please do not sell out this unique wild place.

Sincerely,

Geraldine Fardal
