To: blm_ak_coastalplain_EIS@blm.gov

To The BLM:

America does not NEED to drill in the Arctic National Wildlife Refuge. There are numerous alternative strategies for meeting our energy needs. This is just about oil and gas companies making a profit. Profit is fine, but rather than destroy our environment and throw the world's ecology off-kilter, pour investment into the energy sources of the future: solar, wind, nuclear. Let companies in those fields make money and create jobs. Don't endanger animal species - and the future of the human species - just to give a few dinosaur companies a financial boondoggle.

Climate change is real, and a real problem. Don't contribute to it. Think about the future. Think about your children and grandchildren. Save the Arctic National Wildlife Refuge.

Thank you.

Respectfully,
Joe Fisch
