Hello i am only 13 and I love animals it is not right what you are doing and you are basically killing thousands of caribous. For some people these caribous are their only resource. These caribous are also a big part of the circle of life, without them who knows whats going to happen. The area that is in danger is where the caribous have their baby's . I really hope you read my letter and think, is this right, is oil better than nature, do we want to be the reason that porcupine caribous go extinct.

Kind regards,
Zoe Legere-Melanson
