The Artic National Wildlife Refuge is certainly in Danger of becoming an (Oil City). It's too bad that certain people (White House Personal) can't understand that (Wildlife) is a big part of our World.

I strongly oppose efforts to develop an oil and gas program in the Artic National Wildlife Refuge.

The long-term Conservation of a Holistic ecosystem in the U.S. will be significantly jeopardized by embarking on this oil and gas program in the Refuge.

I am a supporter of Audubon.
