To Whom It May Concern,

I would like to voice my strong opposition to the proposed oil and gas leasing program within the Arctic National Wildlife Refuge Coastal Plain.

The implementation of oil and gas exploration and development is at odds with everything the wildlife refuge stands for. This coastal plain provides critical habitat for hundreds of species of migratory birds as well as the imperiled polar bear.

A rushed attempt at introducing oil and gas into this region is nothing more than a destructive attack on the pristine wilderness the refuge exists to protect.

As a society we continue to place politics and profits ahead of the environment, at our own peril.

Respectfully,

Dr. Gretchen Lemmink
Cincinnati, OH
