Drilling is a for profit endeavor. It ruins the land, destroys habitat and creates global warming that threatens all of us.

As a citizen, I object to you robbing the future of my child for the purpose of enriching the richest.

This plan is short sighted and destructive.

The common excuse of national security with "energy independence" is false. Global warming, sea level rise, intense storms, diminishing fresh water, all caused by HUMAN activity (Fossil Fuel extraction) are the true destabilizing forces across the globe, and in the end, the wealth created in the extraction of this oil and gas will not protect us.
