Subject: [EXTERNAL] NO drilling in the Arctic National Wildlife Refuge
To: mnhayes@blm.gov <mnhayes@blm.gov>

Dear Miriam Hayes,

I adamantly oppose the invasion of the oil industry into our Arctic National Wildlife Refuge--EXSPECIALLY in the Coastal Plain/birthing grounds. Drilling cannot and will not be done safely there and I do not trust the industries claim it can: it is a destructive operation and accidents happen. Just look at how dirty Prudoe Bay has become and there are the oil spills and explosions that have/still occur Nationally. I do not want any of this to happen to our Arctic Refuge and it will if the BLM caves to the pressure of this industry.

The oil industry already has plenty of places to suck the toxic ooze from the ground, this place, this very sacred place can remain in the hands of conservationists and the wildlife in need of its purity.

I implore the BLM to manage this situation wisely: say no to oil, they have enough, and protect the Arctic National Wildlife Refuge.

Respectfully,

Sue Bumbaugh
