An immense wilderness, bursting with biodiversity and framed by the awe-inspiring Brooks Mountain Range, the Arctic Refuge is pristine, it is spectacular, and for more than 50 years, our country has remained committed to protecting this unparalleled landscape, particularly its sensitive Coastal Plain, and we want to make sure that it remains off-limits to exploration and development for future generations to experience.

A clear majority of Americans oppose oil drilling in the Arctic Wildlife Refuge. This is a wondrous natural place vital to any species. Please don't take this destructive stem. Once the harm is done, we can never go back or fix.

Yours Truly
