Hello,

I am writing to you to express my concerns with leasing any part of ANWR for oil drilling.

This beautiful area is pristine, unspoiled by man or corporate greed. It is one of the last places on Earth that has been and should remain protected from human intervention drilling for oil!

It's a sacred area to the native Alaskans and the possibility of polluting that areas water is absolutely appalling and inexcusable. Disruption of that sacred area will change and impede the lives of so many humans and wildlife for generations.

As a fellow American who dreams of seeing this pristine refuge with my own eyes someday, I implore you to not allow ANY leasing of that land now or in the future to corporate thieves who will only destroy it. Once that damage is done there is no "fix", no going back to the time where a treasured and beloved wildlife preserve even existed!

That land belongs to US, it belongs to Americans and must remain PROTECTED!

Thank you and do the right thing for Americans, not oil companies. The world is watching, please do not harm ANWR.
