I'm sick and tired of this group called BLM and Forestry folks...rounding up. ..shipping off My wild horses and burros...furthermore during the droughts during the summer months...neither of these two groups did NOTHING to make sure they got water....

Why are you still working as BLM???? Your obviously NOT in their best interest.....

I've seen how you round them up....by running F oals till their hooves are gone...run pregnant mares while their having their foals...or chasing a pregnant mare till she breaks her leg.....

That's NOT managing.....thats delebrate murder...why??? Because your a cattlemen....and you hate MY horsesyour like the fox in the chicken coop.....

Either start doing your job Humanely....or get out...or I will help you.....thats a promise!

How can you sleep at night? Or do you just, not care!!!
