

Hello,

2/15/11
oil development
I'm concerned about negative impacts
to the critical habitat of the
Arctic National Wildlife Refuge

Coastal Plain offers migratory
birds + caribou. There is no
substitute. I'm concerned about
using the area limited water
supply to build ice roads +
changing the regions hydrology.
I do not support drilling in
our Arctic National Wildlife
Refuge, + urge you to offer the
highest protections to biologically-
important areas.
Hunter
Fisher
Alaskan

Sincerely,
Amy Johnson
