Dear Sir - Madam,

The Arctic National Wildlife Refuge has been recognized as a valuable resource to be preserved for the millions of wildlife species and the native peoples that rely on the area for sustenance and refuge during migration.

To open this protected area to oil and gas drilling is shocking. Please, do not contribute to the further degradation of the planet!

Leave the Arctic National Wildlife Refuge alone!

Yours truly,  
Carol O'Brien Morris

P.S. I am an 80 yr. old Grandma and I hope to leave my beautiful grandsons, Evan and Derek, something for them to treasure as I have.
