December 28, 2018

Dear Sir or Madam:

I am writing in reference to the Draft EIS for the Coastal Plain Oil and Gas Leasing Program. The plan to lease land for oil and gas drilling in the Arctic National Wildlife Refuge (ANWR), per DOI-BLM-AK-0000-2018-0002-EIS, would put the wildlife and natural environment in the coastal plain area at unnecessary risk for fossil fuel resources, the use of which puts humans all over North America and beyond at risk of serious health concerns. This is not the time to be developing new fossil fuel sources, it is the time to increase development of renewable energy sources that do no harm to humans or animals. Please reconsider this plan to lease ANWR land to the fossil fuel industry, and instead take steps to preserve this unique area, both for the sake of the native animals that live there and for the sake of the rest of us.

Thank you for your time and attention. I also would like to point out that, at the time of this writing, the link to comment electronically is not working, which necessitated my writing to you in this manner.

Sincerely,

Sondra Moore
