First I want to say my name is Mike Ferris and I am a resident of Alaska and have been for over 50 years. Alaska was founded as a resource state and Section 1002 was specifically identified by Congress for its oil and gas resources. I do participate in the harvest of Alaska Resources as a commercial fisherman in Bristol Bay when I am not running my small business with 8 employees in Anchorage and Fairbank. It is critical that Alaska be allowed to use the resources provided to us in this great state. I ask that you move forward with the oil and gas lease sales and let Alaska continue to build its future.

Thanks

Mike
