Hi Nicole,

I would like to formally comment that I do not think oil leases should be granted in the 1002. I think caribou should have the space to themselves along with the Gwich'n people who care for them. The idea that substantive comments should only relate to how best to mitigate damage to the area is also wrong. It is substantive to say no to development that bypasses a vote by the people. A tax law rider is no way to authorize development.

Thank you for noting my comments.

John
