Dear BLM Administrators;

I am writing to urge that the Arctic Refuge not be opened to oil and gas exploration and production. Doing so will endanger a diverse population of native wildlife and plants, potentially causing irreparable harm to a highly sensitive ecosystem and indigenous human culture.

While energy security is essential to the sustainability of Americans, it is high time our nation take the lead as innovators and advocates of alternative energy sources, conservation and protection—not exploitation of our non-renewable natural treasures and indigenous people.

Thank you for considering my comments.

Sincerely,
