To Whom it May Concern:

I am writing to stand with the 70% of my fellow America citizens who oppose drilling in the Arctic National Wildlife Refuge.

This plan would be disastrous to wildlife and to the arctic ecosystem.

Moreover, drilling in the ANWR is a reckless idea at a time when we need to be moving away from fossil fuels anyway.

Please do not allow those who currently want to drill to cling to outdated energy policies and force a short-lived and shortsighted effort to continue our dependence on oil.

Fossil fuels are not a viable long-term source of energy, and we should not be mortgaging \*either\* our economic or our ecologic future to a plan that would destroy this national treasure.

Please reject this plan.
