Dear BLM,

I am writing to express my concern regarding the draft EIS. From my review, there is no new analysis of how much water is currently in the Arctic National Wildlife Refuge or the current quality of the water. It does not address what steps will be taken during the lease sale or once the land is leased to protect the water. The EIS will need to address the steps that will be taken to prevent negative impacts on water quality and quantity.

Thank you for your time,

Stephanie Wight
