Hello-

>

> I'd like to submit my written complaint about the proposed drilling in ANWAR and on the Coastal Plain. Not only is this a cultural/traditional resource, but is one of the last vestiges of wilderness America really has- and as such will be more beneficial in the long run with tourism than with big rigs destroying it. This process has been rushed and not appropriately conducted, and will have a negative impact on Alaska as a whole, as well as setting a dangerous precedent.
