To: Nicole Hayes, Coastal Plain Project Manager

The Arctic National Wildlife Refuge is one of the few pristine places left on this Earth! It needs to be preserved for all time. There should not be seismic exploration, drilling, thumper trucks or any human interruption - any of this will cause irreparable damage to the unique plants and animals that live there, including denning polar bears, calving caribou and breeding migratory birds from all over North America. Explorations nearby from previous decades have already left their scars.

This land is not a frozen wasteland to be savaged and exploited by man. Do NOT allow oil exploration in our wilderness! Please add my comments to the hundreds of thousands other comments favoring protection of the Arctic National Wildlife Refuge.

Save ANWR!!
