Dear Sir/Ma'am,

Alaskans have waited many years for the opportunity to develop the natural resources in ANWR. Previous development on the slope has demonstrated that it can be done responsibly and with very little impact on the environment. In fact, the area of ANWR proposed for development is a very small percentage of the whole.

Alaska's economic future depends on responsible development of our natural resources. We urge you to allow bidding and development to proceed as rapidly as possible.

Sincerely,

Kevin J. McCabe and Linn M. McCabe
Big Lake, AK
