Subject: [EXTERNAL] Oil development in area 1002
To: <mnhayes@blm.gov>

I have been a resident of Alaska for over 25 years. I support a wild coastal plain and oppose any oil and gas development in this area.

Alaska already has oil development. The parts of the DEIS study I read don't address the impact on wildlife based through scientific study....oil and gas exploration in this area should have sound scientific background and research BEFORE starting this project.

Alaska is a beautiful state which already has oil production. Please do not disturb this area of wildlife, birds, and Native culture (hunting in this area).
