The Arctic National Wildlife Refuge is perhaps the most magnificent wilderness left on earth, an irreplaceable treasure not only to Americans but to all of humanity. It is a masterpiece of Creation and worthy of our most dedicated stewardship. We owe it to future generations to preserve its breathtaking beauty, its untamed wildness and the extraordinary wildlife it supports.

As a person of faith I believe that despoiling this exquisite place for short-term corporate profits would speak volumes about our lack of respect for the Almighty who created it and for the children of the future who deserve to inherit a world with God's wildness in it. The coastal plain of the Arctic Refuge has endured through the eons and the ages... please do not let it be ruined on your watch!

Thank you.
