### Comments:

Drilling for oil anywhere is absurd.  
In the Alaska Nat'l Wildlife Refuge  
Oil Drilling will kill Caribou, Wolves  
and Polar Bears and their habitat.  
It will destroy the beautiful way of life.  
It will accelerate Green house gas emissions  
and Climate Change.  
It will increase the current extinction crisis.  
It will make my daughter's life harder.  
The only benefit will be to make Rich  
Oil Executives Richer.  
Everyone else loses.

See other side

Hello my name is kannika and I  
Polar bears and if we will  
release the oil then we  
will disturb the polar bear  
habitat so I think we should  
not do this thank you :-)

Kannika
