Anchorage, Alaska 99513

I would like to submit to the public comment period for the Coast Plain Oil and Gas Leasing Program EIS. **Specifically my objection to any oil or gas activities within either Arctic National Wildlife Refuge of the Coastal Plain.**

The best case impact still leaves up to 2000 surface acres that will be heavily impacted by the oil and gas extraction, and the required roads and seismic testing.

The worst case being a spill in a harsh environment where access to contain and clean up the damage may be delayed for months due to the weather and environmental conditions.

Regards,

-Chris Butcher
