Stop #13

Anchorage, Alaska 99513-7504

To Whom It May Concern:

• The 11 million acres of the Arctic National Wildlife Refuge Coast Plain must continue to be fully protected from oil and gas drilling. Oil and gas extraction is not in the public interest. Adding emissions will contribute to global warming which is already contributing to reducing snow pack and impacting summer water flow in the American West, which in turn contribute to multiple disasters including periodic flooding and droughts.
