### Comments:

I strongly oppose oil and gas leasing in the Arctic National Wildlife Refuge. This land is critical to the existence of polar bears and caribou. It's especially critical to the Gwich'in people of the Arctic plain. Oil exploration may result in short term gain, but the negative effects of oil exploration in the Arctic will outlast us all. As climate change threatens our world, why make such foolish decisions? It breaks my heart to see the US government ruin our environment for future generations. Respect the Gwich'in people. Have more respect for the earth and its living creatures. Do not drill in the Arctic National Wildlife Refuge.
