Coastal Plain Oil & Gas Leasing Program
Anchorage.

To whom it may concern:

We urge your continued protection of the 11 million acres in the Arctic National Wildlife Refuge Coastal Plain currently protected from oil & gas drilling. As you know, greenhouse gas emissions further global warming which reduces snowpack, warms waterways and acidifies the ocean among many other ill effects, harming species, ecosystems, human health and a viable future. Expanded oil & gas drilling is clearly not in the public interest.

Thank you!
