Dear BLM:

I support the 'No Action' alternative, which doesn't allow oil and gas development on the Arctic Refuge Coastal Plain. This is the only alternative that treats the Arctic Refuge as a Refuge, and not an oil field. It's the only choice for keeping our public lands legacy strong. BLM must consider the importance of the subsistence and conservation values that have been protected in the Arctic Refuge for decades.

It seems that drilling something now is not the right time. We in the US are the Number 1 Oil producer. Oil's price is low. Maybe we don't need to rush and drill it out and suck it dry to leave the land ruined because of it. I know that some would not call it ruined. Maybe your virgin daughter isn't ruined after her rape in the rapist's eyes, but she will be in yours.

Sincerely,

Roman D. Dick
