

The Arctic National Wildlife Refuge in Northern Alaska is home to polar bears and the Porcupine Caribou Herd. Hunting in the region has supported the indigenous Gwich'in people for thousands of years. An oil and gas lease sale put forth by the Department of the Interior is now threatening the Refuge's coastal plain.

Tell Interior Secretary Ryan Zinke to stop the lease sale in the Arctic Refuge.

Comment: For the sake of our Indigenous peoples now and for future generations everywhere, we need to protect sensitive environments like the ANWR. Instead of exploring more drilling opportunities, let's put money towards renewable energy sources.
