Comments:

I strongly oppose any development in the Arctic Refuge. This is one of the world's last remaining intact ecosystems, that supports the lives of the Gwich'in, and destruction of this sacred place would irreparably harm it. I also think this "science fair" setup stifles meaningful public debate, and holds down the voices of Alaskans that do oppose drilling. I'd want to see a real public hearing in the future. Again, I am opposed to leasing in the coastal plain. Thank you
