SPECIAL RECREATION STIPULATIONS FOR CAMP SERVICE VENDORS AT BURNING MAN 2014

In addition to items (a), (b), (c), and (d) and the 13 Terms and Conditions on the back of the permit form (2930-2), the following special stipulations are included as part of this permit.

GENERAL

- 1. The permittee is responsible for submitting post-use information to BLM within 30 days after the event. The number of participants per/day and the total gross receipts for vendor sales are required information to be included in the post-use report.
- 2. The permittee is responsible for payment of 3% of gross receipts from vendor sales.
- 3. The permittee shall comply with all Federal, State, County and local governmental agencies having jurisdiction, ordinances, regulations, orders, postings, or written requirements applicable to the area or operations covered by the *Special Recreation Permit* (SRP). The permittee must contact and receive concurrence and license, where required, from all other Federal, State, County, and local governmental agencies having jurisdiction. The permittee shall ensure that all persons operating under the authorization have obtained all required Federal, State, and local licenses or registrations. The permittee shall make every reasonable effort to ensure compliance with these requirements by all agents of the permittee and by all clients or customers under the permittee's supervision.
- 4. An SRP represents a nonexclusive privilege authorizing special uses of the public lands and related waters and, should circumstances warrant, the permit or stipulations may be modified by the BLM at any time, including the amount of use. The authorized officer may suspend or terminate an SRP if necessary to protect public resources, health, safety, the environment, or in the event of noncompliance with permit stipulations.
- 5. This permit *does not give permission* to cross over or use any private lands during transportation to or departure from the event. The permittee will be fully responsible for all trespass on and/or damages to private land caused by vendor activities or participants.
- 6. No value shall be assigned to or claimed for the permit, or for the occupancy or use of Federal lands or related waters granted thereupon. The permit privileges are not to be considered property on which the permittee shall be entitled to earn or receive any return, income, price or compensation. The use of a permit as collateral is not recognized by the BLM.
- 7. The permittee will be responsible for the prompt repair of any activity-related damages

to utilities and related improvements to a condition which is at least as good as the condition just prior to the event. The permittee will be responsible for the repair and/or restoration of any improvements placed on public lands by BLM or its authorized users that may be damaged as a result of the event.

- 8. The BLM reserves the right to alter the terms, conditions, or stipulations of a permit at any time for reasons such as significant policy changes, administrative procedure changes, stipulation changes, impacts to resource values, user conflicts, etc.

OPERATIONS

- 9. The permittee shall provide BLM with a list AND prices for goods or services that will be offered under the SRP authorization.
- 10. The permittee shall provide the BLM with a location (street address within Black Rock City) and number of units for each service that is being provided for the event participants.
- 11. The permittee shall display the Outside Services (OSS) use sticker (provided by the Black Rock City), in a visible location. This will increase the efficiency in completing compliance checks that will be conducted throughout the event.
- 12. An SRP only authorizes the use, for the time and in the area as specifically described therein. The event shall be confined entirely to a clearly defined and plainly marked area as shown on the authorized use area maps.
- 13. The permitted activities shall not interfere with other valid uses of the Federal land. The United States reserves the right to use any part of the area for any purpose.
- 14. All advertising and representations made to the public and to the authorized officer must be accurate and should state that the activity is being held on public lands managed by BLM. The permittee shall not use advertising that attempts to portray or represent the activities as being conducted by the BLM. ***The permittee may not portray or represent the permit fee as a special Federal user's tax or BLM fee.*** The permittee must furnish the authorized officer with any current brochure and price list.
- 15. The permittee is responsible for inspecting the permitted area and any surrounding areas for existing or new hazardous conditions. The permittee is responsible for maintaining public safety within the permit area.
- 16. Permittee shall provide first-aid services with the capability to ensure that any accident victim may be located, treated, and evacuated as needed.
- 17. Only those structures, buildings, or other temporary facilities identified in the operating plan are authorized. This permit authorizes **NO** permanent developments.
- 18. The permittee must present or display a copy of the special recreation permit to

participants, a BLM representative, or law enforcement personnel upon request.

- 19. The BLM may examine any of the records or other documents related to the permit, the permittee, the permittee's operators, employees, or agents for up to three years after the expiration of the permit.
- 20. The permittee, staff or participants may be held accountable for suppression of a wild-land fire determined to be directly caused by those associated with the transportation service.

An escaped fire or an observed wildland fire ignition must be reported immediately by calling 911 or notifying emergency response personnel. Central Nevada Interagency Dispatch Center (Winnemucca): (775) 623-3444

In addition:

- Spark arresters and mufflers are required on all vehicles normally equipped with them.
- Use of non-BLM permitted incendiaries (including fireworks) is prohibited due to high wild land fire potential.

RESOURCE PROTECTION

- 21. With the exception of the flat AND un-vegetated playa surface, all **vehicle use is limited to existing or designated vehicle routes** (roads and ways).
- 22. The permittee shall do everything possible to insure that event participants and spectators do not harass or collect wildlife, plants, livestock or archaeological features and artifacts.
- 23. The permittee is responsible for clean-up and assumes liability for any and all releases of hazardous substances on public land as defined in the National Oil and Hazardous Substances Contingency Plan (40 CFR 300). Permittee will immediately notify the BLM Authorized Officer of any and all releases of hazardous substances and or oil on public land. Transportation, storage and use of any hazardous materials must be in accordance with all local, state and federal laws and regulations.
- 24. The permittee shall ensure that all services and equipment provided for use shall be in good working order, without leaks onto the playa surface.
- 25. Non-compliance with any above permit stipulations will be grounds for denial of future permits.

I have read the special stipulations and certify that all event related operations shall be conducted in accordance with the above listed stipulations as well as the 16 terms and conditions listed on the back of the permit form 2930-1. I understand that a violation of any term, condition, or stipulation may result in the cancellation of the Special Recreation Permit authorization
